OBJECTIVE

I am a Computer Science & Engineering student at Barak Valley Engineering College with a genuine passion for programming and building things. From writing my first lines of Python to experimenting with IoT circuits and exploring AI/ML, I enjoy the process of turning ideas into working solutions. I have hands-on experience across web development, embedded systems, and machine learning through multiple internships, and I am always eager to learn new technologies and take on challenging problems.

EDUCATION

Barak Valley Engineering College, Assam CGPA: 6.45 (Pursuing)	2024 – Present
Nalbari Polytechnic, Chandkuchi, Nalbari, Assam CGPA: 7.2	2021 – 2024
Madhabdev College, Narayanpur, Lakhimpur, Assam Percentage: 47%	2018 – 2020
Rangati Higher Secondary School No. 2, Lakhimpur, Assam Percentage: 75.83%	Completed 2018

INTERNSHIP EXPERIENCE

AI & ML Intern Gauhati University, Guwahati - Explored core concepts of Artificial Intelligence and Machine Learning under academic supervision - Worked on data preprocessing, model training, and evaluation using Python-based ML libraries - Gained practical exposure to supervised learning algorithms and real-world dataset handling - Tech Stack: Python, NumPy, Pandas, Scikit-learn, Matplotlib	Jul 2025
Web Development Intern Infosys, Guwahati - Developed web pages using HTML, CSS, JavaScript, PHP, and MySQL - Worked on dynamic web projects integrating front-end and back-end technologies - Gained hands-on experience with server-side scripting and relational database management	Jan 2024
IoT using Arduino Intern NIELIT, Tezpur - Designed and built IoT circuits using Arduino microcontrollers - Implemented API automation, testing, and circuit programming - Worked on real-time sensor interfacing and data acquisition systems	Aug 2023
Python Programming Intern Amtron, Guwahati - Trained in core Python programming concepts and scripting - Developed small automation scripts and utility programs	Feb – Mar 2023

PROJECTS

Exam Cell Management System Web Application - Built a full-stack system for managing exam workflows in academic institutions - Features: exam creation, student enrollment, admit card generation, and exam conduct - Implemented result processing, non-collegiate/dis-collegiate declarations, and faculty-wise marks entry - Tech Stack: HTML, CSS, JavaScript, PHP, MySQL
--

Smart Home Security System | IoT Project

- Designed an IoT-based home security system using Arduino
- Implemented motion detection, door/window opening alerts, and real-time alarm triggers
- Integrated sensor feedback mechanism for monitoring and notification
- Tech Stack: Arduino, C/C++, IoT sensors, Circuit Design

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, PHP

Web Technologies: HTML5, CSS3, JavaScript, PHP, MySQL

Embedded & IoT: Arduino, Circuit Design, IoT Sensor Integration

Tools & Platforms: Microsoft Excel, VS Code, Git

Soft Skills: Problem Solving, Team Collaboration, Quick Learner, Communication

LANGUAGES KNOWN

English • Hindi • Assamese

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
